## Advanced Versa IC Only \$125.00 for the day

The class covers the advanced features of the Versa IC Control, used in all heating applications. The topics include design features and upgrades, wiring schematics, and troubleshooting. Class topics also include an in depth discussion of the sequence of operation for the control. BACnet MS/TP, BACnet IP, Metasys N2 and Modbus TCP Energy Management Communications will be included with the ProtoNode gateway hardware portion of the class.

The basic Versa IC class is included with all of the other commercial product lines. Please attend this class only if you have previously attended a basic Versa IC class.

The cost of this one day Advanced Versa IC class is \$125. Included in the class, you will receive the training manual (only one per person). We provide a light breakfast of coffee, juice and pastries or bagels and a catered lunch at noon. The class hours are 8:00 AM to 4:30 PM. A certificate of course completion is awarded at the end of class. Register early, as the class size is limited to a maximum of 40 people.
